Google Android

To log in to your site, either scan the Site QR Code or select it from Recent Sites.

You can use your phones camera or select it from a saved image from your phones photo library.

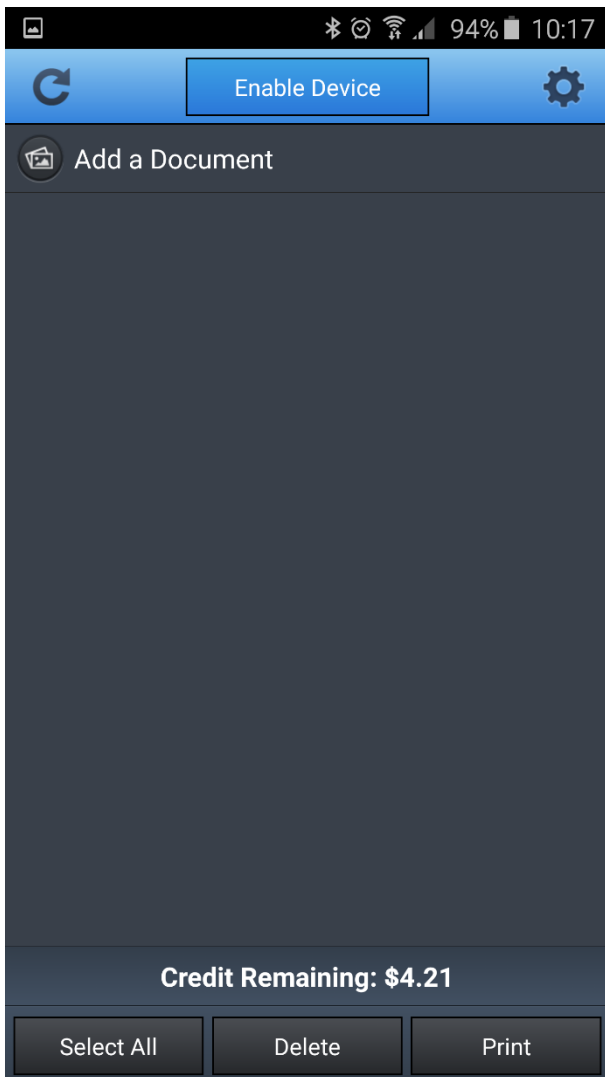

When prompted enter you Login details. You can choose to remember your login details so you don't need to enter them every time you log in.

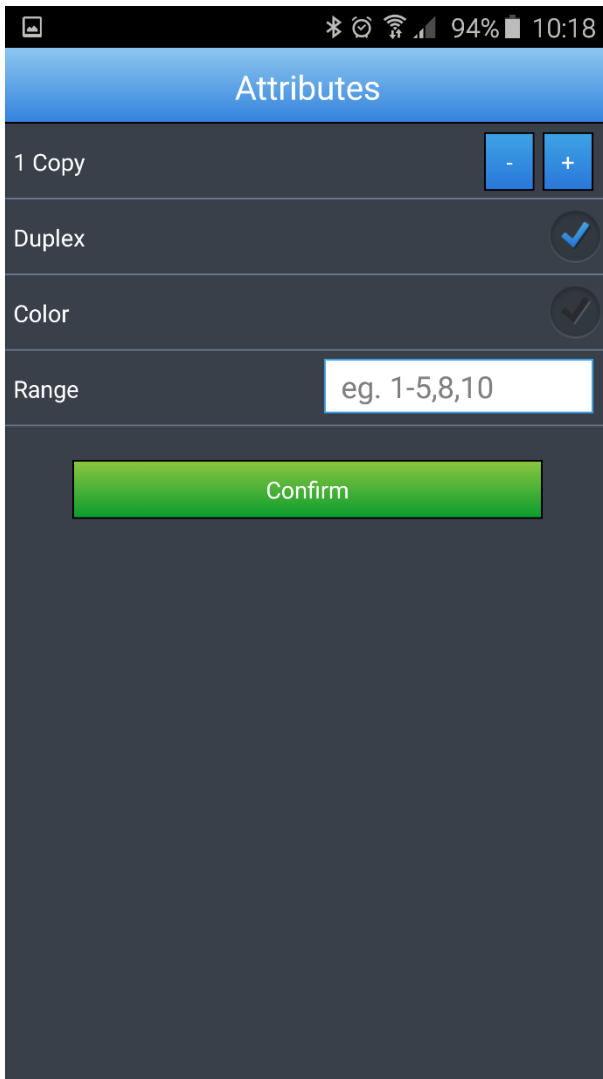

The image shows a mobile application interface for logging in. At the top, there is a blue header with the word "Login" in white. Below the header are two white input fields: "Username" and "Password". Underneath the password field is a checkbox labeled "Remember Details" which is checked. A green button with the text "Continue" is positioned below the checkbox. At the bottom of the screen, a virtual keyboard is visible, showing the letters q, w, e, r, t, y, u, i, o, p on the first row; a, s, d, f, g, h, j, k, l on the second row; and an arrow key, z, x, c, v, b, n, m, and a delete key on the third row. The bottom row of the keyboard includes a hand icon, "?123", a comma key, a spacebar, a period key, and the word "Next". The status bar at the very top of the screen shows various icons (Bluetooth, alarm, Wi-Fi, cellular signal) and the text "94% 10:16".

You can choose to upload a photo from your photo library or log in to the copier/kiosk using Enable Device.

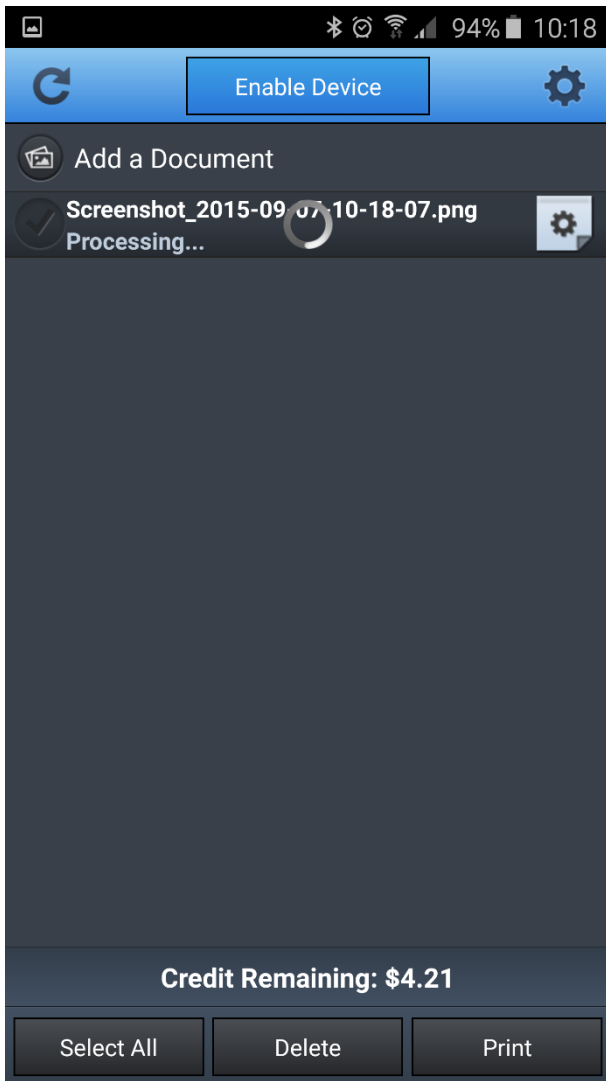

To log in to a device scan its QR Code either displayed on screen or on the sticker next to it.

Select the print job attributes such as Colour/BW, Duplex (Double-sided) and number of copies.

Print Jobs will be available once they have completed uploading.

From here you can select the Job and either Print, Delete or modify its settings.

If you choose to print it you will need to scan the printers QR Code on the sticker next to it. Otherwise you can release it from the Release Stations on site.
