To log in to your site, either scan the Site QR Code or select it from Recent Sites.

You can use your phones camera or select it from a saved image from your phones photo library.

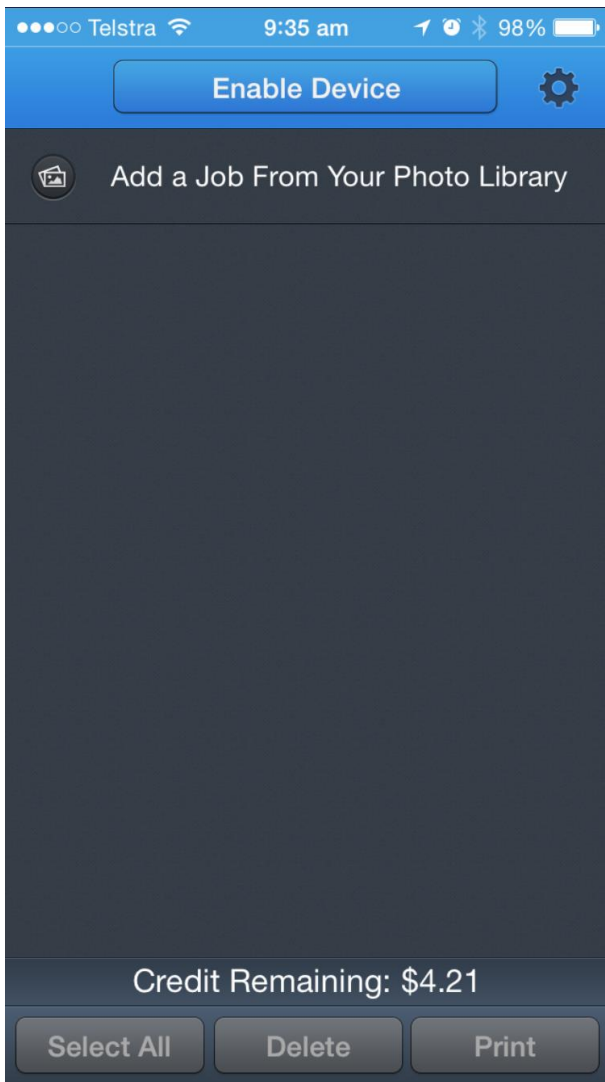

When prompted enter you Login details. You can choose to remember your login details so you don't need to enter them every time you log in.

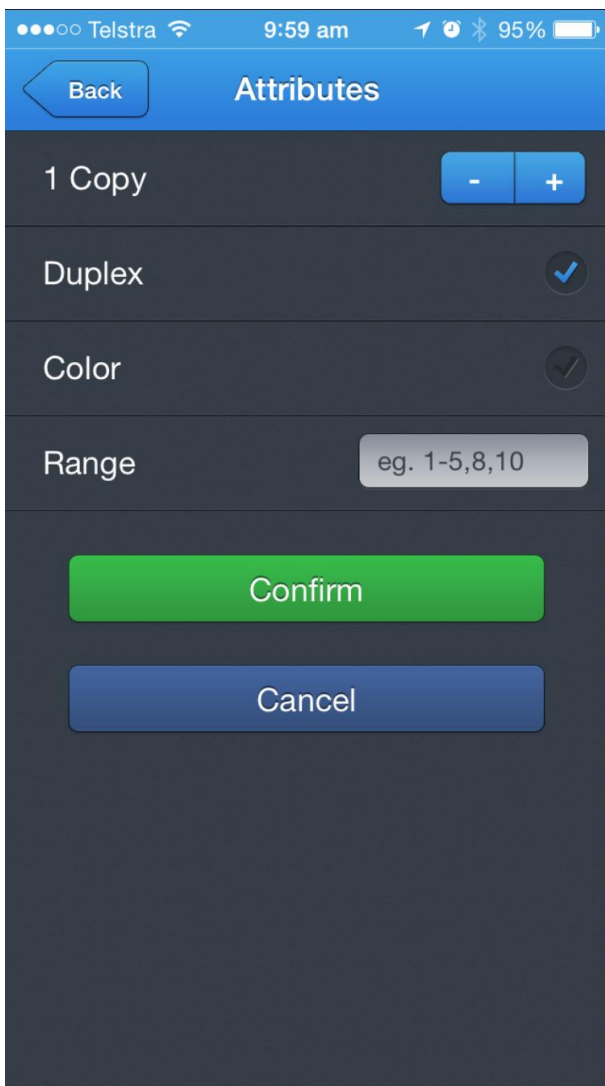

You can choose to upload a photo from your photo library or log in to the copier/kiosk using Enable Device.

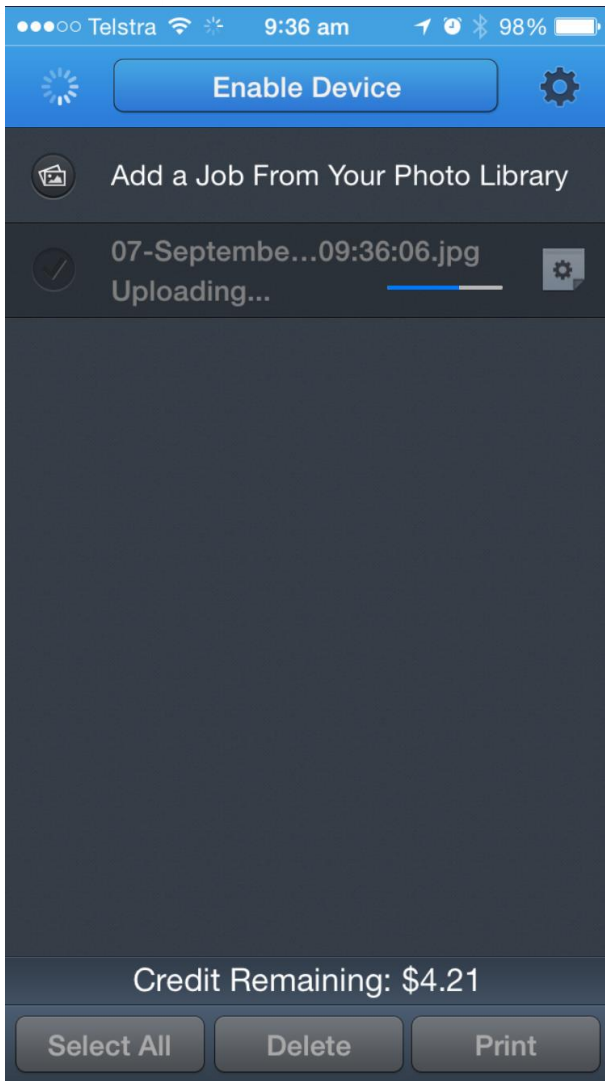

To log in to a device scan its QR Code either displayed on screen or on the sticker next to it.

Select the print job attributes such as Colour/BW, Duplex (Double-sided) and number of copies.

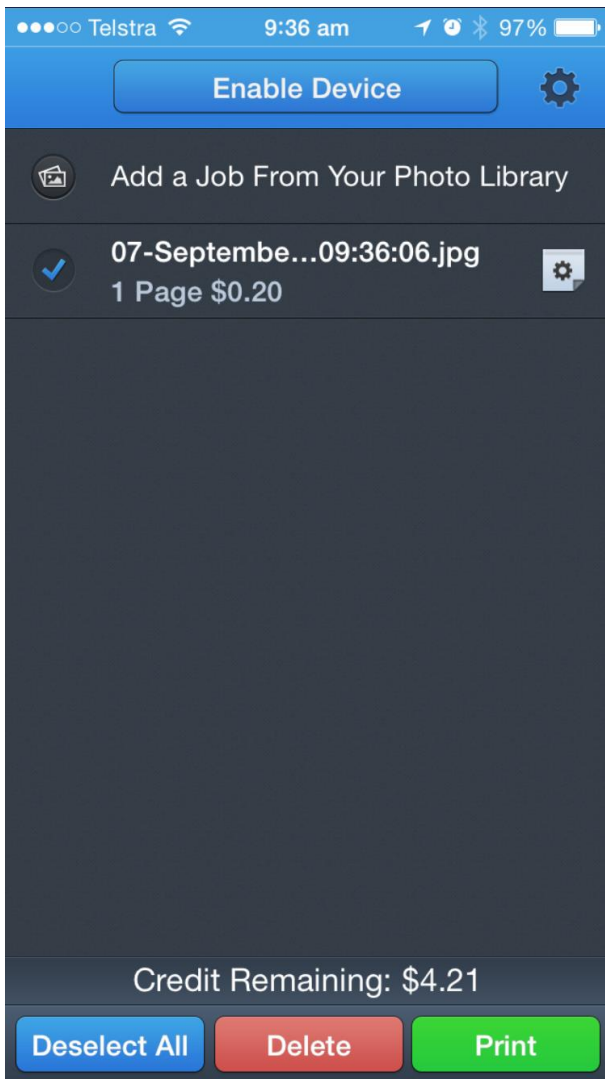

Print Jobs will be available once they have completed uploading.

From here you can select the Job and either Print, Delete or modify its settings.

If you choose to print it you will need to scan the printers QR Code on the sticker next to it. Otherwise you can release it from the Release Stations on site.

You can also upload other file types such as PDFs by selecting “Open In” and choosing “Open in Monitor”.
